ITS YELLOW PAGES TELL YOU "WHERE TO BUY IT"

PACIFIC TELEPHONE

JANUARY 1957

LONG DISTANCE SERVICE

To place Long Distance calls give the operator the city or town, the telephone number you are calling, if you have it, or the name and address under which it is listed. The operator will ask for your number when she needs it to complete the call.

STATION-TO-STATION CALLS—When you will talk with anyone who answers the called telephone.

PERSON-TO-PERSON CALLS—When you want to talk to a particular person or a particular extension telephone connected through a private switchboard, give the operator the name, extension or department after you have given the distant city and telephone number.

COLLECT CALLS—Upon request, the charges on calls to most points within the Continental United States, Alaska, Canada and to certain overseas points may be collected at the called telephone. Collect calls take the regular Station-to-Station or Person-to-Person rates except that higher Station collect call rates apply where the Station rates are 20 cents or less on calls within Oregon or 25 cents or less on calls outside of Oregon.

LONG DISTANCE RATES FROM SEASIDE

(RATES TO POINTS NOT LISTED MAY BE OBTAINED FROM LONG DISTANCE)

NIGHT AND SUNDAY RATES APPLY FROM 6 P. M. TO 4:30 A. M. AND ALL DAY SUNDAY

(Night and Sunday rates also apply on calls to many points on the holidays Thanksgiving, Christmas and New Years. Call Long Distance for rate information.)

THE RATES SHOWN ARE FOR 3 MINUTES. THE FEDERAL TAX IS NOT INCLUDED

The rates shown below are those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

TIME OF DAY..... (The charge for "Time of Day" is the same as the charge at your regular rate for any other local call.)	TIME	OPERATOR

BUSINESS OFFICE LOCATION

The Business Office of the Company is located at 302 Ave. A, Seaside, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save you time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

OTHER PAYMENT OFFICES

In addition to the Business Office at 302 Ave. A, Seaside, bills may be paid in person at the following locations:

Dennon's.....Cannon Beach
Maize Red & White Store.....Warrenton

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ACCURACY

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

DIALING INSTRUCTIONS

When using a dial telephone—

Listen for dial tone. The steady humming sound tells you that the dial equipment is ready for your call. Do not start to dial until you hear the dial tone.

Dial carefully. Refer to the number as you dial, after each turn of the dial remove your finger and let the dial return freely to its normal position. Do not force or retard its movement or you might get a wrong number.

In JEWELL when dialing a Skyline 5 number from another Skyline 5 telephone and in WESTPORT when dialing a Globe 5 number from another Globe 5 telephone, you may omit the two letters and the first numeral (SK 5 or GL 5) and dial only the last four numerals. *However, when giving your number to anyone, always give the complete number—letters and numerals—as these people may want to call you from out of town. Out-of-town calls cannot be completed without the entire number.*

TO CALL ANOTHER PARTY ON YOUR OWN LINE

CANNON BEACH—JEWELL—WESTPORT—If you have Two, Four or Eight Party Line service, DIAL "Operator" to obtain assistance.

If you have Ten Party Line Service, DIAL the desired number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

If you are talking to someone on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a voice-recording signal. This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company following instructions shown under the listings of that company in this directory. The telegram charges will appear on your telephone bill. You may also telephone your telegrams from coin telephones, paying as you would for a telephone call.

Cowboy Clem

...figures that folks who share party-lines will all get the most from their service if they'll remember this round-up of party-line rules...

a round-up of party-line rules

Space your calls instead of making a whole series of them... and talk only as long as necessary.

If yours is an emergency call, and the line is in use, explain the circumstances to the person using the line.

If you are calling from a dial telephone, always make certain the line is clear before you dial.

When the children use the telephone, ask them to be considerate, too.

Replace the receiver properly when you finish your call.

Thank you!

Thanks for using your Directory instead of calling Information

Every day thousands of people call "Information" for telephone numbers that are listed in the directory.

Obviously, *you* did not or you wouldn't be reading this page, and we want to thank you for your help.

Not that we mind giving assistance. When telephone numbers are not listed, we want you to call "Information." But in most cases, the number you want *is* in the directory and easy to find.

Thanks for your cooperation.

The Pacific Telephone and Telegraph Company

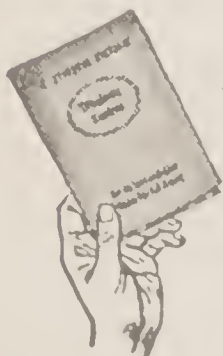

If you call by number
You'll have faster long distance service

You'll have faster long distance service if you give the operator the out-of-town telephone number you are calling, rather than just the name and address. That way, you see, you won't have to wait while she gets the number from "Information" in the distant town you're calling. You'll save time . . . and calling by number means better service for everyone, especially now when long distance lines are carrying so many important industrial and military calls.

this free booklet

. . . for your local and out-of-town telephone numbers is yours for the asking. Just call, send a postcard or drop in to any Pacific Telephone business office for your free copy.

Pacific Telephone

*How to make
good telephone service
even better....*

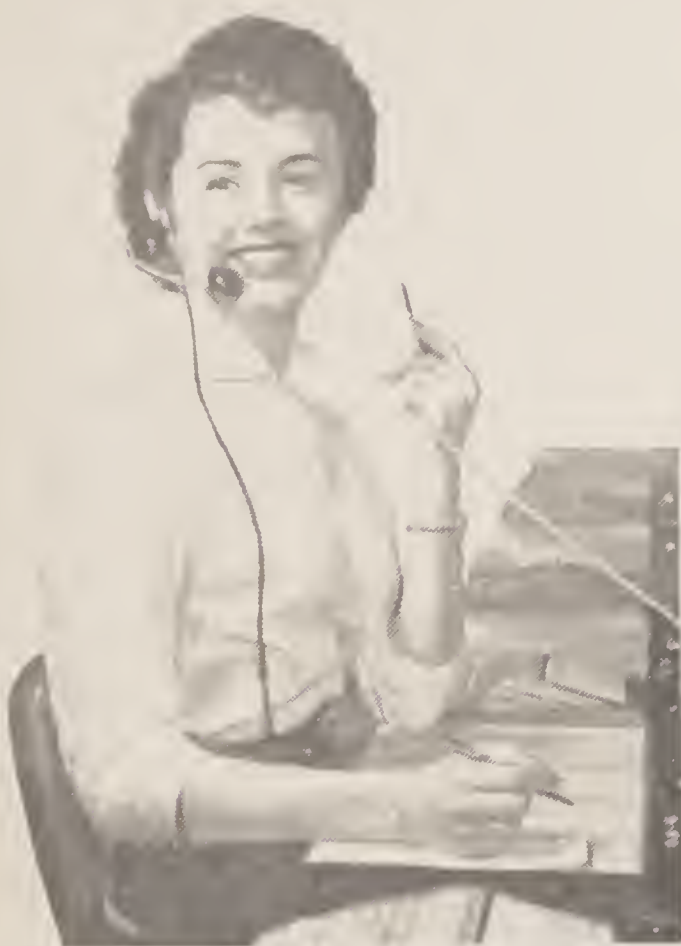

*You'll save time if you
look up numbers before you call*

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call?

Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call. You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

Pacific Telephone

far
from
home?

Long distance visits cost so little

See for yourself. Check the typical rates listed on the inside cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

*I can
put your
long distance
calls through
twice as fast
when you*

Long distance doesn't COST—it PAYS!

In these busy days when saving
 time is so important, more and more
 telephone users are following the
 thoughtful way of answering the
 telephone: "Harry Smith speaking".
 Such an introduction establishes
 identity, saves time and makes a
 good impression

Would other members of your family appreciate a separate listing in the telephone directory... under their own names? The cost is small, the convenience great

A Handy Man
FOR ANY JOB—

AND PERHAPS YOU WANT HIM QUICKLY. IT'S EASY TO FIND THE ONE NEAREST YOU BY LOOKING IN THE

Yellow Pages

far
from
home?

LONG DISTANCE
VISITS COST
SO LITTLE

See for yourself. Check the typical rates listed on the inside front cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

 102 N. Holladay Dr.

Mr. Carpenter:

For additional satisfaction to home builders, suggest that telephone service engineers will help without charge in planning for concealed wiring and built-in outlets for plugging in portable telephones.

When building or remodeling, call the Business Office and ask for Architects' and Builders' Service.

The telephone is a proved busi-
ness getter.

PLANNING TO BUILD A NEW HOME?

*Have your architect or
contractor place*

BUILT-IN TELEPHONE OUTLETS*during construction*

● BUILT-IN TELEPHONE OUTLETS add little to building costs . . . much to value and convenience. The location of the telephone can be changed, or additional telephones may be added in the future without tearing up flooring, or running wires along baseboards.

Our

ARCHITECTS' and BUILDERS' SERVICE
gladly will furnish up-to-date and practical
information without cost.

Just call us and ask for
"ARCHITECTS' and BUILDERS' SERVICE"

Improvements in the telephone ort which may contribute to the expansion of service in rural areas include high-strength steel wire requiring fewer poles; a method of sending telephone conversations over rural power lines; rubber-covered wire that can be laid directly in the ground; and radio-telephone for remote spots.

Would other members of your family appreciate a separate listing in the telephone directory . . . under their own names? The cost is small, the convenience great.

It's There

RIGHT WHERE
EVERY PROSPECTIVE
BUYER CAN
SEE IT

That's why your Telephone
Directory advertising will be
productive

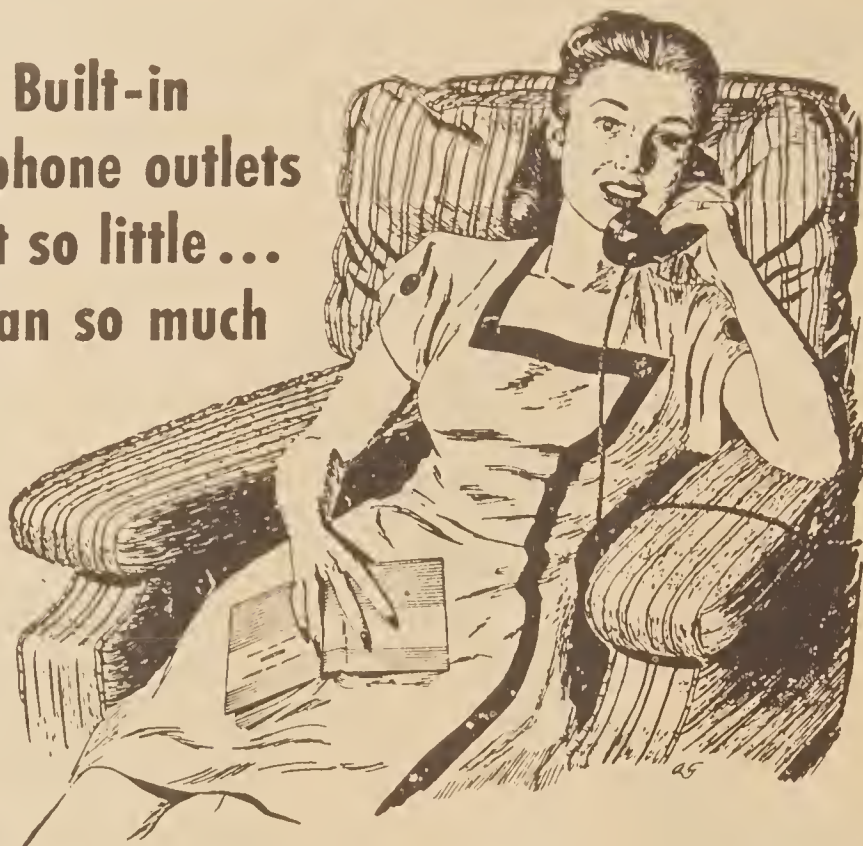

FRIENDLY TEAMWORK ON PARTY LINES

She answers her telephone bell promptly... places her own calls accurately, so that they do not have to be made again... does not monopolize the telephone at the inconvenience of others... teaches her children, too, the little telephone kindnesses... and when her telephone is not in use, sees that it is hung up.

Though the persons who share the party line with her have never met her face to face, they like her and are grateful to her. She is a thoughtful party line "neighbor."

**Built-in
telephone outlets
cost so little...
mean so much**

At the time a house is built, the cost of installing conduit for a number of telephone outlets is small...and it adds real value to the home. It's a wise economy, even if only one telephone is needed immediately.

Additional telephones can be added when you want them...where you want them...without running exposed wires along baseboards or moulding or drilling through floors. When you build, plan for a number of outlets. Call your local Telephone Business Office and ask for free Architects and Builders Service.

The Pacific Telephone and Telegraph Company

extension telephones now available for your home

*For just pennies a day you can enjoy the
convenience of an extra telephone.*

*Extensions are handy so many places. In the breakfast nook or
basement . . . in bedrooms, the den, or garage . . . in any part of
your home where you spend a lot of time,
an extension is a time-saver and step saver. We can offer this
service again because extensions require only additional
telephone sets, not outside cables and central office facilities.*

*To order your extension, just call your
Pacific Telephone Business Office.*

The Business Office of the Company is located at 1020 Commercial St., Astoria, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save you time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ACCURACY

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between a telephone on land and a ship equipped with a radio telephone or between ships when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a telephone on land call "Long Distance" or dial "Operator" and ask for "Marine Operator" and tell her you wish to place a call to a ship, giving her the name of the ship and its approximate location.

DIALING INSTRUCTIONS

When using a dial telephone—

Listen for dial tone. The steady humming sound tells you that the dial equipment is ready for your call. Do not start to dial until you hear the dial tone.

Dial carefully. Refer to the number as you dial, after each turn of the dial remove your finger and let the dial return freely to its normal position. Do not force or retard its movement or you might get a wrong number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

WARRENTON—Telephone numbers of other customers on your line will have the same first three figures as your telephone number. To call another party on your line, dial "9", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

If you are talking to someone on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a voice-recording signal. This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company following instructions shown under the listings of that company in this directory. The telegram charges will appear on your telephone bill. You may also telephone your telegrams from coin telephones, paying as you would for a telephone call.

Please make sure it's the right number

It's surprising how one's memory will play pranks and cause one to say, for example, "1621" for "1261."

Please consult the directory first.

This is particularly desirable when there has lately been a new issue of the telephone directory.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

Aunt Ellie says...

"good neighbors share the party-line, too"

"Land sakes—how I do enjoy seeing good neighbors getting along together...whether sharing homemade apple pie or the party-line telephone! Being a courteous telephone user is a mighty good habit..."

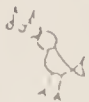

party-line pointers

Space your calls instead of making a whole series of them.

If your party-line neighbor asks you for the line to make an emergency call, it's thoughtful to hang up...and call back later.

If you are calling from a dial telephone, always make certain the line is clear before you dial.

When the children use the telephone, ask them to be considerate, too.

Replace the telephone carefully when you finish your call.

Thank you!

Building your dream home soon?

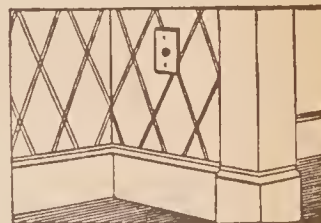

Don't forget to plan ahead for concealed telephone wiring

Whether you'll want only one or a number of telephones, the time to plan for built-in concealed wire facilities is when your home is still in the blueprint stage.

For then you can be certain you won't later have to tear up part of your flooring or bring the wire in along the baseboard.

So decide in advance on convenient locations, and specify that conduit be installed during construction. This provides a metal tube through which wires may be drawn when your telephone is installed.

Our Architects' and Builders' Service will help you in every way possible at no charge.

The Pacific Telephone and Telegraph Company

*How to make
good telephone service
even better....*

*You'll save time if you always
keep these simple points in mind when
you make telephone calls*

1 Look up any number you're not sure of in your latest directory . . . before you make your call.

2 Jot the number down . . . so you'll have it conveniently before you as you call.

3 Dial carefully . . . keeping your eye on the dial.

Pacific Telephone

*How to make
good telephone service
even better....*

Give your friends time to answer

How often have you had someone hang up just as you answered the telephone? It isn't always possible, you know, to get to the telephone the moment it rings—the folks you are calling may be out enjoying their garden, or busy in some distant part of the house. You'll reach them more often . . . and avoid the disappointment of an incompleted call if you give them a *full minute* to answer.

Pacific Telephone

To help speed service...use your Directory instead of calling "Information"

In most cases, the number you want is listed in your Directory and is easy to find. We have tried to make your Directory as easy as possible to use. And it's a good idea to keep a handy list of the numbers you call most frequently conveniently near your telephone.

Three out of five "Information" requests are for numbers already listed in the Directory. Supplying numbers not yet listed is, in itself, a big job. But that's what "Information" is for. So to help us speed *necessary* information calls, please turn first to your Directory. If the number you wish to call is not listed, then call "Information." *Thank you for your cooperation.*
